

JLG Forklift Part

JLG Forklift Parts - In the late 1960's John L. Grove, with his wife Cora started out on a cross country journey in their RV. Newly retired, after spending numerous years working with his brother to build their crane business into an market leader, John had no idea that fateful trip would permit JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision materials handling equipment was the end consequence of a road expedition.

While on their journey, John spent time talking to former business associates whom the Groves stopped to visit along the way. These conversations combined with a tragic event-two workers being electrocuted on scaffolding when the Groves were visiting Hoover Dam- John discovered an infinite market for a product that could quickly and securely lift individuals in the air to accomplish maintenance and other construction services.

After their return from holiday, John set up a partnership with two of his friends and obtained a metal fabrication company in McConnellsburg, Pennsylvania. Opening with a small crew of twenty staff, they produced and sold their first JLG aerial work platform in 1970. The business incorporates many of the basic design essentials of that original lift into existing models.

JLG forklifts have come a ways from the time when Mr. John L. Grove came back to town from his cross-country road trip and since the initial aerial work platform debuted on the market. At present, the business proudly continues to expand itself into many markets worldwide and develops new products to make certain consumers are capable of being more efficient and perform in the workplace within a safer atmosphere.
